

Automated alarm notifications and data reports, for effortless monitoring of products in storage

### Automation

Use the CX5000 Gateway to automate data downloads to the cloud for immediate text/email notifications of critical excursions

### Compliance

Comprehensive 21 CFR Part 11 compliant solution with NIST calibrated loggers and a 1-year calibration certificate, and secure data storage and transmission

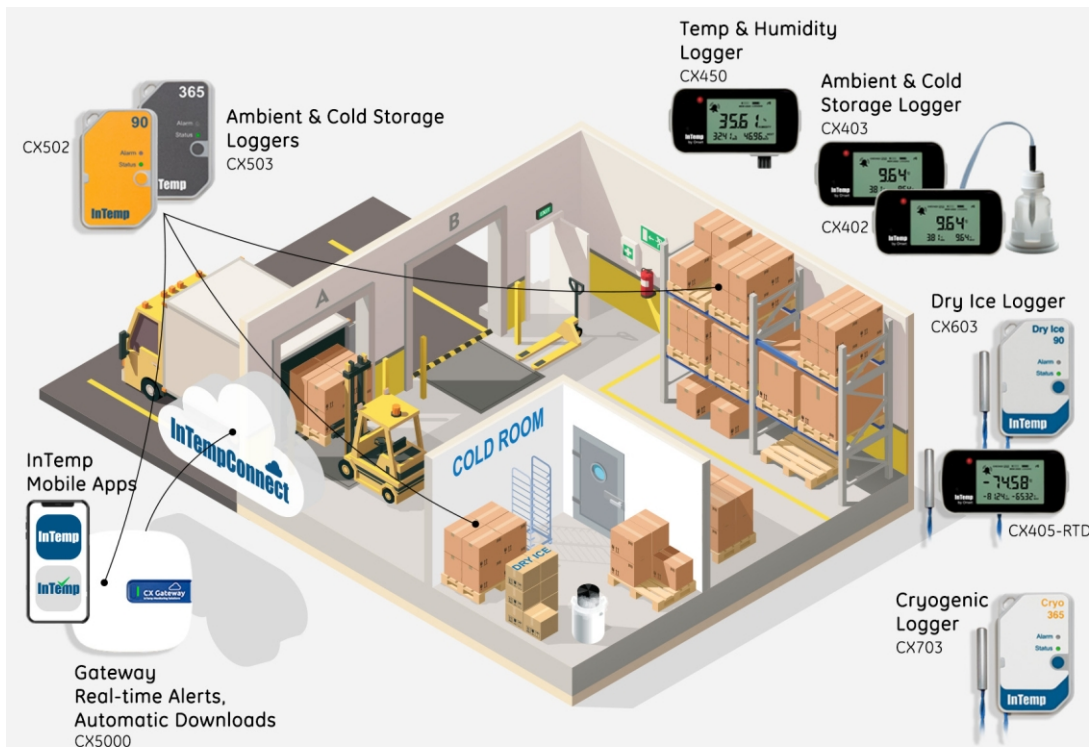

### Reporting

Use data tags to easily identify problematic storage units, and to organize/group logger data for advanced customized reporting

### Increased Visibility

Monitor multiple units worldwide to ensure product safety and efficacy, reduce costs, and increase efficiencies

## Automation

Gain visibility into storage areas with automatic excursion alerts and data reports.

### Preprogrammed data downloads

Program the CX5000 Gateway to automatically download data when loggers are within 100 feet.

### Always informed

With the CX5000, you can enable automatic email and or text alert notifications via InTempConnect to immediately be informed of critical alarms and receive reports via email upon all data downloads.

## Cloud Based Decisions and Reporting

Our cloud-based InTempConnect solution lets you make critical product-disposition decisions quickly to reduce product loss, and create flexible, secure reports to provide the data you need, when you need it.

### Crucial decisions, made on time

Rely on automated reports after an excursion occurs and make effective, timely product-disposition decisions.

### Clear, organized reports

Gather data from individual sites – from a local to global level – and build clear, organized reports for refrigerators, freezers, cold rooms, etc.

### Customized reporting that meets your needs

Create custom, automated reports for quality assurance (QA) and regulatory auditing to ensure the safety and efficacy of the pharmaceutical and medical goods they are monitoring.

**DATA LOGGER**

**InTemp Bluetooth Temperature with Glycol Bottle (VFC/CDC) Data Logger**

InTemp CX402-VFCxxx (with glycol bottle) data loggers monitor temperatures in refrigerators and freezers for clinics...

**DATA LOGGER**

**InTemp CX405 RTD Dry Ice Data Logger**

The InTemp CX405-RTD Dry Ice data logger is specifically designed for ultra-low temperature monitoring of vaccines and...

**DATA LOGGER**

**InTemp Bluetooth Ambient Temperature Data Logger**

Wireless, NIST-certified temperature data logger with internal sensor

**DATA LOGGER**

**InTemp Temp/Relative Humidity Data Logger**

The InTemp CX450 Temp/RH data logger monitors temperature and relative humidity in storage and transportation...

**DATA LOGGER**

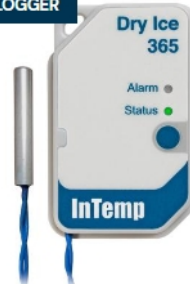

**InTemp Bluetooth 90 Day Single-Use Temperature Data Logger**

The InTemp CX502 Bluetooth data logger is a single-use logger that records temperature data for up to 90 days. Designed...

**DATA LOGGER**

**InTemp Bluetooth 365 Day Multiple-Use Temperature Data Logger**

The InTemp CX503 Bluetooth data logger is a multiple-use logger that records temperature data for up to a year. Designed...

**DATA LOGGER**

**InTemp Dry Ice Logger - Multiple Use Data Logger**

The InTemp CX603 Dry Ice data logger is a Bluetooth-enabled multiple-use logger that records temperature data for up to...

**DATA LOGGER**

**InTemp Cryogenic Multiple Use Data Logger**

The InTemp CX703 Cryogenic data logger is a low-cost Bluetooth-enabled multiple-use logger that records temperature data...
